Community foundations In partnership with UK Community Foundations (UKCF)

Community foundations are local champions, inspiring social equity through place-based philanthropy by advising individual donors

and organisations who want to give at the heart of their communities for both now and in the long-term.

UK Community Foundations

By grantmaking segment, 2022-23

There are 47 accredited community foundations in the UK who vary greatly in scale - the smallest (Derbyshire Community Foundation) providing grants to the value of £0.5m and the largest (Foundation Scotland) to £23.4m.

Grant Making Spending (£m)

Reflections from UK Community Foundations

Community foundations played a significant role in supporting local charities during 2023. They launched local appeals and pooled their funds, utilising local expertise and distributing money where it was vitally needed.

We continue to encourage all of our community foundations to publish their grant making activity using the 360Giving Data Standard so that the amazing work they are doing can be seen.
